CodeRED Weather Warning

CodeRED is used by public safety officials to inform the public of immediate threats to health and safety. When you sign up to receive emergency alerts, you will be notified when an emergency is happening in your area. Some examples of messages you could receive include: severe weather situations, a “boil water” order if systems are compromised, or a notice that you should stay inside because of critical police activity.

Visit www.weld911alert.com or call (970) 304-6570 to sign up for CodeRED Weather Warning and begin receiving automated alerts the moment you’re immediately impacted by severe weather. Alerts for severe thunderstorms, flash floods and tornadoes will be delivered via phone call, text, email or a combination of all three, based on your specific preferences.

If you need assistance updating your information, please contact the Communications Center at 970-400-2899.
