ANNUAL SEWER FLOW ADJUSTMENTS

Each year, your sewer flow average is adjusted. The sewer rate you see on your utility bill is a mix of the sewer base, and sewer flow. To calculate the sewer flow, your average water usage from January, February, and March is used. The sewer base is \$14.68 for a residential property. The sewer flow is \$4.64 per 1000 gallons of water used. If your home averages 4,000 gallons of water in January, February, and March, your monthly sewer rate would be \$33.24.

You will see these updated sewer charges on your utility bill that will be mailed to you on **April 1, 2023**.

MEDICATION TAKE BACK

Citizens can come to and drop off medications to the collection box during normal business hours (Monday-Thursday 7AM -6PM) at the Town Hall/Police Department.

What can be dropped off?

The program accepts and destroys unused and expired over-the-counter and prescription medications generated by households. All locations accept prescribed controlled substances (i.e. Percocet, Vicodin, Xanax, Ritalin and Adderall). Medications may be deposited in their original containers, but you can help conserve space in collection bins by pouring pills/capsules into a zip-top bag and then trashing or recycling containers separately. Strike out personal information on pill containers before depositing in collection bins or trashing/recycling them. Do not deposit excessive packaging, like cardboard boxes, in the collection bins.
